T4-T9 Infrared

T4-T9

The Infrared (IR) Touch Screen displays are the perfect centerpiece for any collaborative environment. These display models can be converted from a wall-mounted panel into an interactive table using the optional table kit. This offers a portable solution that adds interactivity to any space.

These touch tables are manufactured in the USA. With a wide variety of panel sizes available, this commercial grade touch screen display is ready for any classroom, office, or retail setting.

The touch displays are available with an integrated i5 computer. Substitute an i7 for additional speed and enhanced collaboration functionality across remote networks.

2, 6, 12, and 32 points of touch standard Ultra-Light aluminum design Quick and smooth touch response HDMI, DVI-D, VGA

Interactive Touch Display Sizes

T4 (42")

T5 (50")

T6 (60")

T7 (70")

T8 (80")

T9 (90")
